NEW HOTEL HERE?

INVESTMENT MAN VISITS MARYVILLE TO STUDY POSSIBILITIES.

TO REPORT FAVORABLY

E. P. Wright of the Bankers Investment Company of Omaha to Boost for \$100,000 Building.

Maryville is to have a new hotel—that is, maybe, if the report that E. P. Wright of Omaha, Neb., is favorable to the Bankers Realty and Investment company, of which he is a member.

Mr. Wright spent yesterday in Maryville studying the possibilities and advantages of a new hotel here. He talked to business men, looked over sites and made himself generally agreeable and interesting to the persons who have their hand on Maryville's purse. He left last night for Omaha, full of information, and keyed up with enthusiasm over the prospects of landing a new hotel for Maryville.

The new hotel which the company proposes to build will be a 75 to 100-room structure, absolutely modern and fireproof. It will cost approximately \$100,000. And the beauty of it is, the city will not be required to collect a bonus before the company takes hold. The entire responsibility will be taken by the company and the people of Maryville will be allowed to take stock in it or not—just as they choose.

The Bankers Realty and Investment company is making a reputation throughout west and southwest Missouri for the success of its business ventures. It has at present under process of construction the Blackstone hotel in Kansas City and the St. Regis of Omaha are also products of the enterprise of this company.

During Mr. Wright's visit in Maryville he looked at various sites for the hotel and asked prices, but, of course, did not make any promises. He expressed himself as well pleased with Maryville's enterprise and future, and gave those who talked with him the most encouraging report of his observations here.

Mr. Wright will let the Commercial club officers know the results of his visit in a few days.

"PHILOS" GIVE PROGRAM

Introduce Unique Feature at Close of Assembly Program—Girls' Quartet Makes "Hit."

The Philomatheans gave the assembly program at the State Normal school this morning. The entertainment was in the form of a minstrel show, Bruce Wilkerson, the president of the Philos, acted as interlocutor. The program opened with a duet by Mr. Wilkerson and Miss Marie Grundy, entitled, "Nobody Knows the Trouble I've Seen," and this was followed by a number of jokes sprung on the members of the Eureka society and on various members of the faculty.

A quartet given by the girls came next, and they responded to the hearty applause with an encore. Wade Henderson sang "The Preacher and the Bear" and the boys' quartet starred in the rendition of "Nelly Was a Lady." The last song was sung by the members of the society.

At the close of the program two pigeons, tied with streamers of light blue and gold, were let loose and circled over the auditorium. This unique feature proved most effective.

Miss Lucy Archer of Conception Junction was shopping in Maryville today.

MERCURY TUMBLES TO 4

J. R. Brink Has Records to Show That Season's Cold Is Not Over Early.

The mercury took a great tumble last night, and stopped only when it had reached 4, making this morning the coldest of the season so far. Later in the day it warmed up, though, and with an eye on the weather prediction, one can safely say that we shall see some more warm days before real winter sets in.

J. R. Brink has a number of interesting figures to show that the weather is treating us very well when compared with that of other years. In 1894 it was 4 above zero on November 11; in 1895 it was 3 above zero on November 4; in 1898 it was 4 below zero on November 4; in 1905 it was 4 above zero on November 14; in 1911 it was 2 above zero on November 16; in 1914 it was 2 above zero on November 6; in 1915 it was 2 above zero on November 3. So you see the weather on the whole has been rather lenient.

Mr. Brink didn't have the date of the first snow of 1915 handy, but Cooper Goodwin did. He took out his diary and announced that the first snowfall of 1915 was November 13. His entry for a year ago today was: "A fine, cool day."

WILSON MAY LOSE A VOTE

ONE DEMOCRATIC ELECTOR MAY BE DISQUALIFIED.

Enormous Increase in Idaho's Vote Leads to Canvass—Other Complete Returns.

Special to The Democrat-Forum. Boise, Idaho, Nov. 14.—President Wilson is likely to lose one electoral vote from Idaho, owing to the fact that one Democratic elector was also elected to the state legislature. He cannot hold both offices.

The enormous increase in Idaho's vote, estimated at 35,000 over the vote of two years ago, has led to an official canvass of the entire situation.

Official recount of the votes cast last Tuesday over California began yesterday. Unofficial reports from other counties regarding the presidential recount showed in all cases small gains for President Wilson.

In Minnesota Hughes was leading over Wilson 235 votes. The soldiers' vote to date has been 727 for Wilson and 725 for Hughes.

Kansas Returns.

Topeka, Nov. 14.—Kansas complete returns show Wilson received a majority of 34,441.

Election Betting Resumed.

New York, Nov. 14.—Rumor, which later proved unfounded, caused resumption of election betting on the curb at noon. The wagers laid Hughes will be elected. Rumor was that an error was found in California count giving the state to the Republicans.

R. R. SITUATION SERIOUS

Officials of the Big Four Brotherhoods Scheduled for Sunday in Washington to Prevent Strike.

Special to The Democrat-Forum.

New York, Nov. 14.—With the railroad situation again growing ominous another meeting of the officials of the big four brotherhoods and railway managers committee has been set provisionally for next Sunday in Washington. It may be necessary to hold the meeting sooner. Two futile sessions were held yesterday. As the situation stands the railroad employees, four hundred thousand in number, threaten to strike unless the eight-hour day goes into effect.

E. W. CONLEY INJURED

Son of Mr. and Mrs. J. M. Conley Is Kicked in the Face by a Horse—Receives Serious Wound.

E. W. Conley was painfully injured at 5:30 o'clock last night at his home, four miles east of Maryville. He was leading a horse to the barn when another horse standing nearby kicked him on the cheek.

Mr. Conley was accompanied to town by Russell Smock and the wound was dressed, several stitches being taken in the cut. He is now at the home of his parents, Mr. and Mrs. J. M. Conley, and is feeling better today.

GAULDING ARRESTED

BROTHER OF NODAWAY MEN IS HELD AT ST. JOSEPH.

OTHER BOYS IN TROUBLE

One Brother Sentenced to Penitentiary for Box Car Looting—The Second One Paroled.

According to the St. Joseph News-Press, Henry Gauling was arrested Sunday in South St. Joseph on a charge of being a ringleader of a gang of box car thieves, which has been operating in Missouri, Kansas and Oklahoma for several months. County authorities here say Gauling is a brother of James and Wood Gauling, who were tried in circuit court here about six years ago on a charge of looting a box car at Ravenwood. James Gauling got a five year sentence in the penitentiary, and his brother, Wood, got a two year sentence, but was paroled when James Gauling took the blame and responsibility for the entire robbery.

Sheriff Ed Wallace said today that James Gauling was released from the penitentiary last June and was sent up from Chillicothe on a charge of robbery for a term of two years.

The article from the paper follows: Discovery of a big box containing 5,700 cigars, in a haystack on a farm a mile south of the city, resulted in the arrest of Henry Gauling, alias Joe McGinnis, in South St. Joseph Sunday. McGinnis is accused of being the ringleader of a gang of box car thieves who have been operating in Missouri, Kansas and Oklahoma for several months, and who are believed to have looted cars in the vicinity of St. Joseph to the extent of \$5,000 worth of merchandise within the last six weeks.

Gaulding's accomplices, including two of his brothers, have been arrested in Kansas City on information furnished by the St. Joseph police. They will be brought here. The cars looted here were on the Burlington tracks.

The police say that Gauling gave important information, implicating others who were in the robberies.

For several months railroads in Missouri, Kansas and Oklahoma have been reporting daring box car robberies, but all efforts to run down the thieves had failed. Robbers are said to have been particularly active south of St. Joseph lately, and the Great Western and Burlington have suffered the loot taken here is said to have been taken to Kansas City in motor cars and there disposed of.

Chief of Detectives Johnson said today that Gauling and his associates will be turned over to the state authorities as soon as the Kansas City officers arrive with the men arrested there. Gauling is thirty years old, and says he formerly was a brakeman.

ENGLAND TO FRONT

BRITISH DELIVER FIRST ASSAULT OF WAR UNDAID.

KINGDOM IS REJOICING

Capture of Beaumont Announced by the War Office—Germans Try to Avert Pressure.

Special to The Democrat-Forum.

London, Nov. 14.—England's greatest blow on the Somme front was struck, smashing forward through the first line positions of the Germans over a line five miles wide. The British have advanced more than a mile and are now in a position to strike at the strategic town of Miraumont. It is the first time England has delivered a grand assault undaunted. With Beaumont, Fort St. Pierre and probably Serre in their possession, the British have straightened their line. West of Papeune they wiped out the Germans in a salient which has bothered them for months and stormed positions which the Germans deemed impregnable, but this important success didn't go uncontested, and few if any bombardments carried out by the allies equalled the fury of the defense. There is great rejoicing throughout the kingdom.

Beaumont-Hamel Announced.

London, Nov. 14.—The capture of Beaumont-Hamel was officially announced by the war office. A powerful offensive continued all night. Between four and five thousand German prisoners were taken by General Haig. Germany Admits Loss.

Berlin, Nov. 14.—Germany admits loss of Beaumont-Hamel and St. Pierre division on the Somme front. There has been no important engagements on the eastern front.

Paris, Nov. 14.—Germans began attack on Champagne in an effort to divert the allied pressure from their lines on Somme and Verdun fronts.

MAY RECOUNT "WET" VOTE

Anti-Saloon League Wants Results in St. Louis Changed—Charge Fraudulent Voting.

Special to The Democrat-Forum.

St. Louis, Nov. 14.—The Missouri Anti-Saloon League will decide within a few days whether to seek a recount of the St. Louis vote on the prohibition amendment.

The vote, as returned, gave 13,272 for prohibition and 140,990 against. Incomplete returns from out in the state, however, indicate a great majority for prohibition outside of St. Louis.

"We are convinced," said the Rev. W. C. Shupp, superintendent of the league, "there was not a fair count in St. Louis of the votes cast on the prohibition amendment. We have had many reports tending to substantiate our belief of a fraudulent count."

MAKING GOOD AS A POET.

Dudley A. Reid, of Gilman City, Missouri, who was for several years engaged in the newspaper business in Maryville, seems to be making quite a reputation as a writer of verse. Some years ago he wrote a poem entitled "The Perfect Man" in answer to an editor who had made reference to his physical condition that attracted considerable attention. A few weeks ago a poem by Mr. Reid entitled "Tribute to Thomas Paine" appeared in the ninety-fifth anniversary edition of the Lyons, New York, Republican, which created wide comment. It evinces a deep study of Paine as the patriot whose lack of orthodoxy obscured his claims to recognition as an author, and the great service rendered to the revolutionary cause. A more recent poem entitled "The Schoolmaster Makes Good," is a tribute to the president of the United States and has been widely quoted and was used to a considerable extent during the recent campaign. Mr. Reid has been the editor of several newspapers in Missouri and is now postmaster of his home town. His friends in Nodaway county will be glad to learn that his talents as a writer of verse are being appreciated by the magazines and hope that he will reap profitable returns from his efforts. In this day to secure appreciation as a writer of poetry is difficult and the pay is wholly inadequate, but Mr. Reid says he is now satisfied he can spread upon the pages of history enduring thoughts in attractive form regardless of the effect upon his bank account.

TWICE BEFORE THE PUBLIC ENDURED LONG ELECTION SUSPENSE

CLEVELAND AND HAYES

All Three of These Were Contests of Men in Which Dominating Personality Played a Large Part.

Special to The Democrat-Forum.
New York, Nov. 14.—Only two parallels are found in American history to the long suspense experienced this year in determining the result of the presidential election.

In 1884 it took three days to learn that Grover Cleveland had won by gaining New York state's electoral vote from James G. Blaine with only 1,100 majority. In 1876 it took an

electoral commission to decide the famous Tilden-Hayes contest.

It is interesting to note that the contests of 1876, 1884 and 1916 were contests of men, in which dominating personality played a large part. This is particularly true of the 1884 and 1916 contests. Roscoe Conkling, the brilliant senator from New York, had much to do with the eventual outcome of these two countries.

In the case of the Tilden-Hayes fight it was said Mr. Conkling was of the opinion Mr. Hayes had not been elected president, and therefore should not be declared the victor. If Senator Conkling had acted on this view he could have marshalled enough votes in the senate to throw the electoral vote of Louisiana to Mr. Tilden. But he failed to act on the matter, and tradition says that in so doing he was influenced by a brilliant woman who took that means of venting upon Mr. Tilden her anger because he had caused the defeat of her father, Salmon P. Chase, in the Democratic presidential convention of 1868.

Prior to 1916 the Blaine-Cleveland campaign of 1884 was easily the most sensational presidential campaign in fifty years. Blaine was the idol of the Republican hosts and undoubtedly would have been president had it not been for the unfortunate "Rum, Romanism and Rebellion" utterance of Dr. Burchard in the Fifth avenue hotel on the evening of election. Mr. Blaine neglected to repudiate his sentiment, and as a result more than enough votes were turned in New York alone to defeat him. The Burchard episode, coupled with the relentless hostility of Roscoe Conkling, made the defeat of Mr. Blaine, as it afterward turned out, inevitable.

The enmity between the two men of dominating personality went back to their rivalry for the leadership of congress. Efforts were made by friends at various times to patch up the quarrel, but Mr. Conkling was implacable. His bitterness toward Mr. Blaine caused more than 1,000 of his supporters in his home county, Onondaga, to vote directly for Mr. Cleveland, thereby furnishing enough votes to turn the tide of battle.

As it became evident that the race would be close to the last, the excitement throughout the nation, and particularly in New York, was intense. On the day after election it was announced that Mr. Cleveland had carried New York, Indiana, New Jersey and Connecticut, together with "the solid south," thereby winning 226 electoral votes to 176 for Mr. Blaine.

The Republican managers displayed these figures. They said that late returns from up-state New York would show a plurality for Mr. Blaine. And, indeed, for a time it looked as if their predictions would be fulfilled. The Democrats charged that Jay Gould, a warm friend and political supporter of Mr. Blaine, was using the Western Union Telegraph company, which he controlled, to hold back the election

returns.

The situation became so serious that A. P. Gorman, chairman of the Democratic executive committee, on Friday, November 4, issued the following statement:

"The national Democratic committee announces to the people of the United States that Grover Cleveland and Thomas A. Hendricks have carried 219 electoral votes for the offices of president and vice president.

"The states which have declared in their favor are Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, New Jersey, New York, North Carolina, South Carolina, Tennessee, Texas, Virginia and West Virginia, carrying in all 219 electoral votes—eighteen votes more than sufficient to elect.

"No fraud or connivance can defeat the will of the people of the United States thus publicly and deliberately declared."

Late that afternoon the belated returns from up-state came through and they issued the election of Mr. Cleveland. Jay Gould was one of the first to congratulate Mr. Cleveland on the event.

Victoria, British Columbia, Nov. 13.—A six-foot reflecting telescope, with the exception of the one on Mount Wilson, in California, the largest in

The movable parts weigh forty tons and the dome inside in which it is housed is seventy-five feet high and sixty-six feet in diameter.

The steel framework of the dome is designed to permit free circulation of

It is hoped the new telescope will solve the mystery of the so-called canals on the planet Mars.

Gmelich-Painter Contest of 1909 Closely Resembles Recent gubernatorial Race—Contest May Follow.

St. Louis, Nov. 14.—Additional official returns including absentee votes increased the lead of Frederick G. Gardner, Democrat, over Henry Lamm, Republican, in their race for the governorship of Missouri, by 52 votes last night. Saturday night, with all counties heard from, Gardner was leading Lamm by 1,600 votes.

The absentee vote apparently is giving Gardner a little the best of it in the state. Approximately 800 St. Louis votes will be counted Tuesday. These absentee ballots were cast for the most part by railroad men and salesmen.

The absentee voters law was passed in 1913, and was tried for the first time at a general election in Missouri last Tuesday. The law provides that a qualified voter who is unavoidably detained from home, while within the state, may present himself at any polling place in the state and vote. The voter away from home must be sworn and make affidavit that he is detained from home because of his duties, occupation, or business, and give his township or ward. The judges' names must be written on the back of the ballot and the ballot mailed to the city or county seat of the city or county of the voter.

All ballots must have been received by Saturday at noon. The power to count the ballots rests with the county clerks, in the presence of the county courts and the election boards.

Any of the absentee votes may be challenged and the officials counting the ballots have all the authority of precinct election officials in determining upon the challenges. All absentee ballots must be preserved.

The close contest for governor recalls the Gmelich-Painter contest for lieutenant governor in 1909. When the legislature met following the election of 1908 it found both Gmelich and Painter claiming to be victorious.

Upon the original returns Gmelich had a plurality of thirty votes. Upon amended returns from a number of counties of the state Painter had a lead of twenty-seven votes. The legislature appointed a joint commission of senators and representatives to settle the matter. A count was made in St. Louis. The committee rejected all ballots without initials, with only one initial and ballots not numbered. It recommended the seating of Gmelich, who was shown to have received a plurality of 177 in the recount.

Under the constitution the legislature in joint session determines contests for governor and lieutenant governor. It has power to open the ballot boxes, and make all investigations necessary to determine the fairness of an election.

RELIEVE HEADACHES WITHOUT DOSING

By Applying Sloan's Liniment to Forehead You Can Stop the Severe Pains.

Many headaches are of a neuralgic origin. The symptoms of such headaches are intense and lingering pains in the brow, temples or back of the head.

There is one certain relief that has been known and recommended for years back, Sloan's Liniment. One application and the dull pain is practically gone. It is easily applied without rubbing. Rubbing is unnecessary, as Sloan's Liniment quickly penetrates to the seat of trouble.

Aching muscles, rheumatism, bruises, lumbago, chilblains, sprains and stiff neck can also be most effectively treated with Sloan's Liniment. Cleaner than musky plasters or ointments; it does not stain the skin or clog the pores.

DR. KING'S NEW DISCOVERY FOR COUGHS AND COLDS

When I was Down Town To-day I Caught Cold

"Got my feet wet and my clothes damp. I was dressed rather warm and I went from one store to another and I caught cold. I felt the effects coming home and I could hardly talk--'ker choo, my!'"

"John you go right over to the drug store and get me something for this cold, I feel so miserable and all fagged out." (John goes to the nearest drug store and gets a bottle of Dr. King's New Discovery for coughs and colds.)

"I'm so glad you got Dr. King's New Discovery, John. Why I remember when I was a little girl how mother used to give me this for colds, it's certainly pleasant to take and soothes the irritated throat and relieves the congestion, the first spoonful makes me feel better already."

John says: "The druggist told me that Dr. King's New Discovery was an old preparation and that he had sold it as long as he has had the store and when he used to be a drug clerk. He felt pretty sure it would fix your cold and I had seen it advertised. Glad you found an old friend." You try it.

SIMPSON WRITES HOME

Coach Schulte Receives Word From World's Champion Hurdler Telling of Successes.

H. F. Schulte, football coach at the University of Missouri, received a letter today from Bob Simpson, mailed from Stockholm, Sweden, October 17. In this letter Bob says he received two firsts, one second and two thirds in the Stockholm meet. This is contradictory to reports in several newspapers.

The American team arrived at Stockholm Friday morning, October 13. Saturday, Sunday and Monday were spent in training for the meet. In the 200-meter hurdles, Bob won a first in the world's record time of 25.4-5 seconds. In this race he beat Fred Murray to the tape by eight yards. The hurdles used were three feet high, the height over which Murray defeated Simpson in America previous to the trip abroad. The race was run off late in the afternoon and it was so dark that the track was lighted with electric lights. The two Swedish runners in the race knocked over ten hurdles between them, which would have disqualified them in this country, but against which there is no rule at Stockholm. Bob did not knock over a single hurdle.

Bob's other first was in the 110-meter hurdles which also gave him another world's record of 14.4-5 seconds. This record appears all the more remarkable from the fact that 110 meters is 120 yards 10 inches. Simpson secured second place in the 200-meter run, third in the 100-meter dash and third in the 60-meter dash.

Altogether Bob received 17 points at this meet, which made him individual point winner. Murray was second with sixteen points, Loomis third with fifteen points, Meredith fourth with ten points and Ward fifth with four points. In most of the races the Swedish runners had a bad fault of breaking; that is, starting before the gun was fired. They were called back numerous times for this.

The form which Simpson showed in the hurdles was new to the Swedish runners.

From Stockholm the team left for Christiana and then to Copenhagen.

THE INAUGURAL BALL

PLANNING NOW FOR WASHINGTON'S CHIEF SOCIAL FUNCTION.

Wilson to Appoint Inaugural Chairman Soon—"First Lady of the Land" to Take Part.

Special to The Democrat-Forum.

St. Louis, Nov. 14.—Fearing the president's second wife has "excessive social ambitions" and will revive the inauguration ball next March, the fourth conference of the Union Methodist ministers of St. Louis formally resolved to ask Wilson not to authorize the ball.

Washington, November 14.—Political and civic leaders here already are making plans for the second inauguration of Woodrow Wilson, on March 5, 1917. President Wilson, within a few days, will be asked to appoint an inaugural chairman. Democratic leaders are practically unanimous in the opinion that Mr. Wilson will also sanction the inaugural ball plans, and they now are discussing tentative arrangements for continuing this time-honored custom.

The inaugural ball would be the first big public social gathering of the administration at which the "first lady of the land" would meet prominent men and women from all parts of the United States. As Mrs. Wilson has been a resident of Washington for many years, she is familiar with the ball custom, and it is predicted by social leaders that she will graciously accept as her duty such an occasion to herald a new social season in the national capital.

The inaugural balls are held in the court of the pension office, the only place in the capital large enough to accommodate the throngs which attend. As soon as President Wilson names the inaugural chairman and indicates his willingness to attend the inaugural ball local committees will begin their work of preparing for the event.

From states throughout the union applications for hotel reservations are pouring in. Scores of requests are coming from Democratic marching clubs. Hotel proprietors say that the number of early reservations made indicates that Washington may be called upon to entertain one of the largest gatherings ever brought to witness the elaborate inaugural ceremonies.

Dr. A. T. Fisher of Kansas City was in Maryville today.
